Education

The University of Texas at Dallas , Dallas, TX	May 2026
<i>Bachelor of Science in Computer Information Systems & Technology</i>	
Johns Hopkins University , Online	In Progress
<i>Professional Certificate in Cybersecurity: IT and Data Security in the Age of AI (in partnership with Great Learning)</i>	
The University of Texas at Dallas , Dallas, TX	In Progress
<i>Global Career Accelerator – Professional Certificate Program</i>	

Experience

University of Texas System , Austin, TX	June 2025 – Present
<i>Information Security Intern</i>	
- Designed and deployed SPL-based detection dashboards to monitor login trends, IP anomalies, and event volume across enterprise systems, improving threat visibility and accelerating incident triage - Developed and enforced Windows LAPS policies across Active Directory and hybrid environments, automating local admin password rotation and reducing credential exposure risk across 500+ endpoints - Contributed to Microsoft Intune security policy deployment, enhancing endpoint compliance, device management, and mobile security posture across managed assets - Assisted in security monitoring and log analysis to identify abnormal authentication behavior and potential indicators of compromise	
Chief Technology Group , Houston, TX	June 2024 – August 2024
<i>Cloud Engineer Intern</i>	
- Configured and hardened Azure Firewall policies to secure inbound/outbound traffic flows and reduce attack surface across client cloud environments - Monitored Azure and Citrix environments, resolving 200+ technical incidents while maintaining system performance and availability for enterprise clients - Supported migration of legacy infrastructure to Azure DevOps, improving CI/CD workflows and cloud governance practices - Assisted with IAM role management and access control improvements to align with least-privilege security principles	
Roomi Group Corp , Houston, TX	January 2020 – August 2023
<i>IT Support / Systems Administrator</i>	
- Managed identity and access controls for 200+ employees via Azure Active Directory, enforcing RBAC policies and security best practices - Implemented secure user provisioning and de-provisioning processes, reducing access risk during employee transitions - Supported endpoint and account security policies to protect organizational data and systems	

Projects

Private AI Infrastructure Feasibility Study – DFW Technology	Jan 2026 – May 2026
<i>Project Lead & Systems Analyst ITSS 4395 Senior Capstone – UT Dallas</i>	
- Selected as a Top 15 capstone project out of 6,000+ UT Dallas students, recognized by a panel of industry judges at the UTDsolv Capstone Expo for project quality and execution - Led a 5-person consulting team as primary client point of contact for DFW Technology, advising on the feasibility of deploying private AI data warehouses in partnership with the City of Richardson - Translated client and municipal stakeholder requirements into structured system recommendations covering AI infrastructure, data governance, and policy compliance frameworks - Produced professional deliverables including a feasibility report, data flow diagrams, risk assessments, and a final client-facing presentation	

Skills & Additional Information

- **Computer Skills:** Microsoft Azure, Azure AD, Intune, Azure Firewall, Splunk, SPL, KQL, AWS, Active Directory, Windows LAPS, RBAC, Conditional Access, PowerShell, Python, C++, Java, AZ-900
- **Languages:** English, Urdu, Hindi, and Arabic
- **Eligibility:** US Citizen, eligible to work in the US for internships and full time with no restrictions.
